

Enzyme Solutions Incorporated

Odor Solutions

Deodorizes by eliminating the source of the odor quickly and safely!

Odor Solutions works to destroy odors at the source. Rather than merely masking odors with a scent, the proprietary multi-enzyme formula in this product works to break up and destroy the organic material causing the malodor. Only a natural lemon scent will remain.

Odor Solutions is an all natural way of eliminating tough odors found in animal stalls and kennels and any other area where odors are problematic.

Sold in:

- Gallons
- Pails
- Drums
- Totes

Safe and Eco-Friendly - Odor Solutions is purely organic and biodegradable. This enzyme formula is non-toxic and contains no harsh chemicals.

Directions - Mix 8-10 ounces of Odor Solutions per 1 gallon of water. Spray surfaces with automatic or manual sprayer as needed.

Odor Solutions is:

- Non-toxic
- 100% biodegradable
- Non-caustic
- Cost effective

Tough:

Breaks down and removes grease, food, ink, petroleum products, dirt and grime

deposited on treated on untreated surfaces. This multi-enzyme cleaner will also

remove stains in overalls, rags, aprons, and linens. The *Industrial Strength Cleaner* eliminates offensive odors when sprayed around dumpsters, sinks and restrooms.
