

# Alkaline Detergent

Alkaline Detergent is a versatile low-foaming detergent for cleaning medical instruments, equipment, rubber, metal and plastic items.

Alkaline Detergent effectively removes blood and other bio-burden.

Alkaline Detergent can be used manually in ultrasonic units or automatic washers.

Alkaline Detergent has a strong alkaline buffer system that maintains a high pH level, a critical feature for effective cleaning and corrosion protection of surgical instruments.

## RECOMMENDED USES:

- Medical/surgical equipment
- Rubber, metal, plastic items
- Respiratory therapy equipment
- Glassware

## ADVANTAGES:

- Alkaline buffer/polymer system provides two modes of cleaning performance
- Contains rust inhibitors to keep instruments from tarnishing or corroding
- Detergent polymer stops bio-burden from redepositing on instruments
- Concentrated and Economical – only 1/8th to 1 oz. per gallon of water required

## TECHNICAL DATA:

- pH 12.1-12.9
- Built-in rust inhibitors
- Non-corrosive
- Biodegradable
- Dilution– 1/8 to 1 oz per gallon of water

## PACKAGING:

- 4x1 Gallon
- 2x2.5 Gallons
- 5 Gallons
- 15 Gallons
- 30 Gallons
