

# General Use Products

Enzyme Solutions, Inc. manufactures a full line of general use skin care products. These high quality products consist of a mild skin lotion, total body shampoo and a mild general purpose lotion soap. All of these products are available in 16 or 32 ounce pump bottles or 1000ml bags that fit in the ESI wall dispensers.

## PREMIUM ESI LOTION SOAP:

- Contains rich emollients that leave hands feeling soft and silky smooth
- Lotion-based skin cleanser that is gentle and mild
- Pleasant fragrance leaves hand smelling fresh and clean to encourage hand washing
- Provides high sudsing and superior rinse-ability for daily use

## PREMIUM ESI TOTAL BODY SHAMPOO:

- Contains rich emollients for a luxurious feeling
- Mild pH-balanced formula that may be used in hard or soft water
- Cleans and conditions skin and hair with complete lather and rinses completely

## PREMIUM ESI SKIN LOTION:

- Triclosan is added to help control odor-causing bacteria
- Soothing lotion enriched with aloe vera, amino acids, and vitamin E to help restore, revitalize, and nourish the healthiness of the skin
- Compatible with CHG hand washes and latex and vinyl gloves
- Non-greasy formulation absorbs quickly into the skin, making it ideal for use throughout the entire day
- Pleasant light fragrance
