

Waterless Antiseptic Hand Sanitizers

ESI manufactures a variety of waterless hand sanitizers to meet the need of any environment. We offer a 62% ethyl alcohol based product as well as a .1% Benzalkonium Chloride. ESI's Servo-Stat™ Foam and Gel, a 62% alcohol based sanitizer contains emollients to help soothe the skin after repeated use. All of these products are available in 16 and 32 ounce pump bottles or 1000ml bags that fit the ESI wall dispensers.

SERVO-STAT™ BAC HAND GEL AND FOAM:

- Contains .1% Benzalkonium Chloride, which exceeds FDA standards for an antiseptic
- Kills pathogenic organisms almost on contact, producing a 99.999% kill in just 15 seconds
- Unique non-alcohol formula that is non-drying to the skin, which leaves hands smooth and soft

SERVO-STAT™ FOAM AND GEL:

- Kills pathogenic organisms almost on contact, producing a 99.999% kill (5 log reductions) in just 15 seconds
- Unique non-drying formulas that leave hands feeling soft and smooth
- 62% ethyl alcohol, a proven antimicrobial agent against a broad range of gram positive and gram negative bacteria and fungi
